

Head of Lake Whakatipu

Natural Hazards Adaptation

Community Workshop

Help shape a natural hazards adaptation plan.

Now that there's a common understanding of the natural hazards facing the Head of Lake Whakatipu, it's time to get together again to continue shaping the direction of a Natural Hazards Adaptation Strategy.

Alongside ORC and QLDC, the aim of this workshop is to build guiding principles which reflect community and mana whenua values and objectives, and to discuss possible natural hazard management and adaptation responses.

Thursday, 31 August

Glenorchy Community Hall

Mull Street, Glenorchy

1-3pm Workshop with refreshments

OR

6-8pm Workshop with a sausage sizzle
